Visuals (Video/Pics/Characters)

Onscreen Text

Text 1: Al Salam Alaykum! This is Abdullah in this section we will learn how to add backgrounds and texts to your Toonly engaging videos.

Text 2: In order to be able to add a background just like the one behind me, you click on the background button on the left of the screen.

Text 3: Now I'm going to show you how to choose different backgrounds by going to the background library on the right of the screen, you choose any background like this mountain's background and just drag it on the screen, here you go see background changed!

Text 4: I will also teach you how to add text to the screen. It is very simple! Go to the Text bottom on the left side of the screen, You can type any text in any size, font, and color.

Text 5: Now you are ready to create your own background and text!

Animation & Interactivity

Action 1: Character (Abdullah) States text 1 (Once the character starts talking the text box will appear on the screen)

Action 2: Character 5 (Abdullah) will state text 2

Action 3: background sections will appear on the left, with the orange arrow on the background section and another one on mounting While Abdullah is stating text 3

Action 4: The background section stays with an orange arrow on the mountain background, the background mountain appears behind Abdullah while he is stating text 4

Action 5: Abdullah states text 5 while the text section appears with an orange arrow on it and "add text bottom on screen the screen.

Action 6: Practice box will appear "You won't be able to access the materials in the next slide unless you submit your work. Keep in mind that this task should not take more than 8 minutes"
