PEDAGOGICAL USE AND AFFORDANCES

# What Is Toonly?

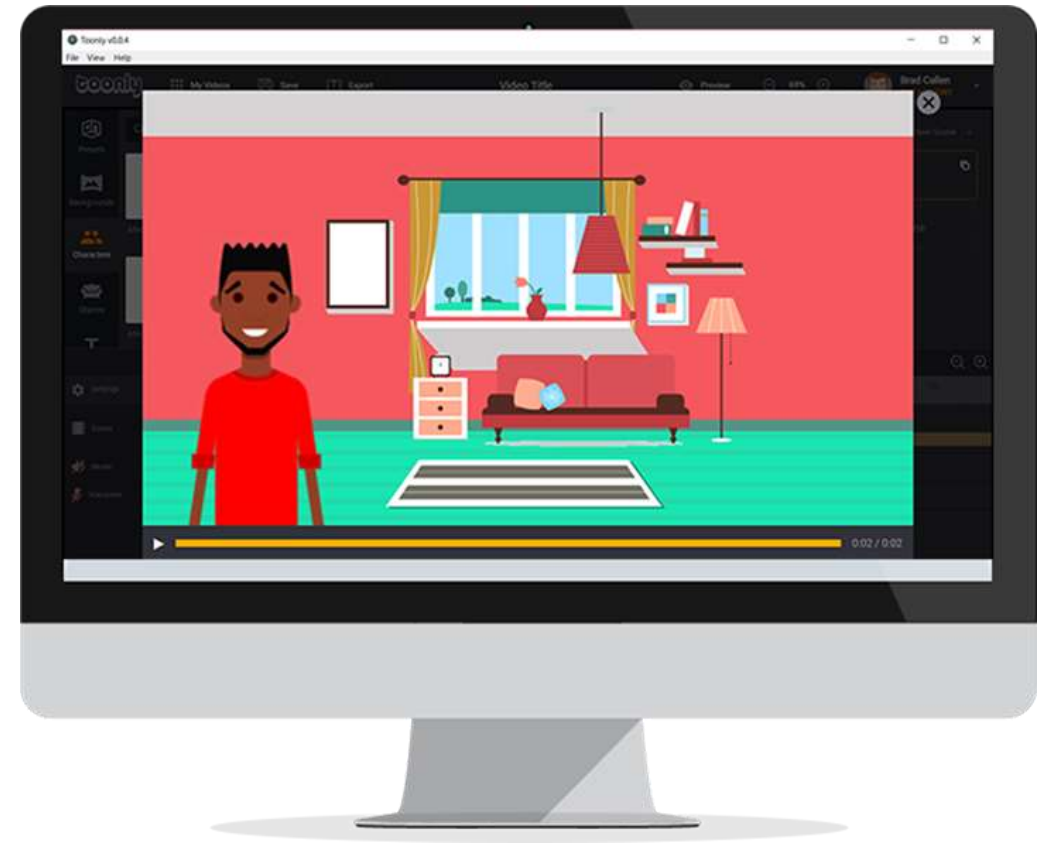

Toonly is a drag-and-drop, professionally animated explainer video software that can be used to create cartoon-styled animation videos.

It also comes with tons of functionality that make the resulting videos truly amazing.

It is a **desktop-based** software that works on both PC and MAC. With a single Toonly license, you can use the software on both devices.

However, you do need an **internet** connection to use this animated video creation software, even if it isn't cloud-based.

# What's Included?

## **Toonly Library**

The Toonly library has a massive collection of characters, props, and backgrounds. It doesn't use the typical stock images or photos.

## **Adding Voiceovers**

You can directly record your voiceovers in the Toonly software itself. You can also sync your voiceover to the existing video with the click of a button. You can also upload a prerecorded voice over file, to the software.

## **Background Music**

Toonly has up to 100 royalty-free music tracks that can be used for your explainer videos. To add the music to your video, you need to simply drag and drop the desired music file to the video timeline.

## **Video Export**

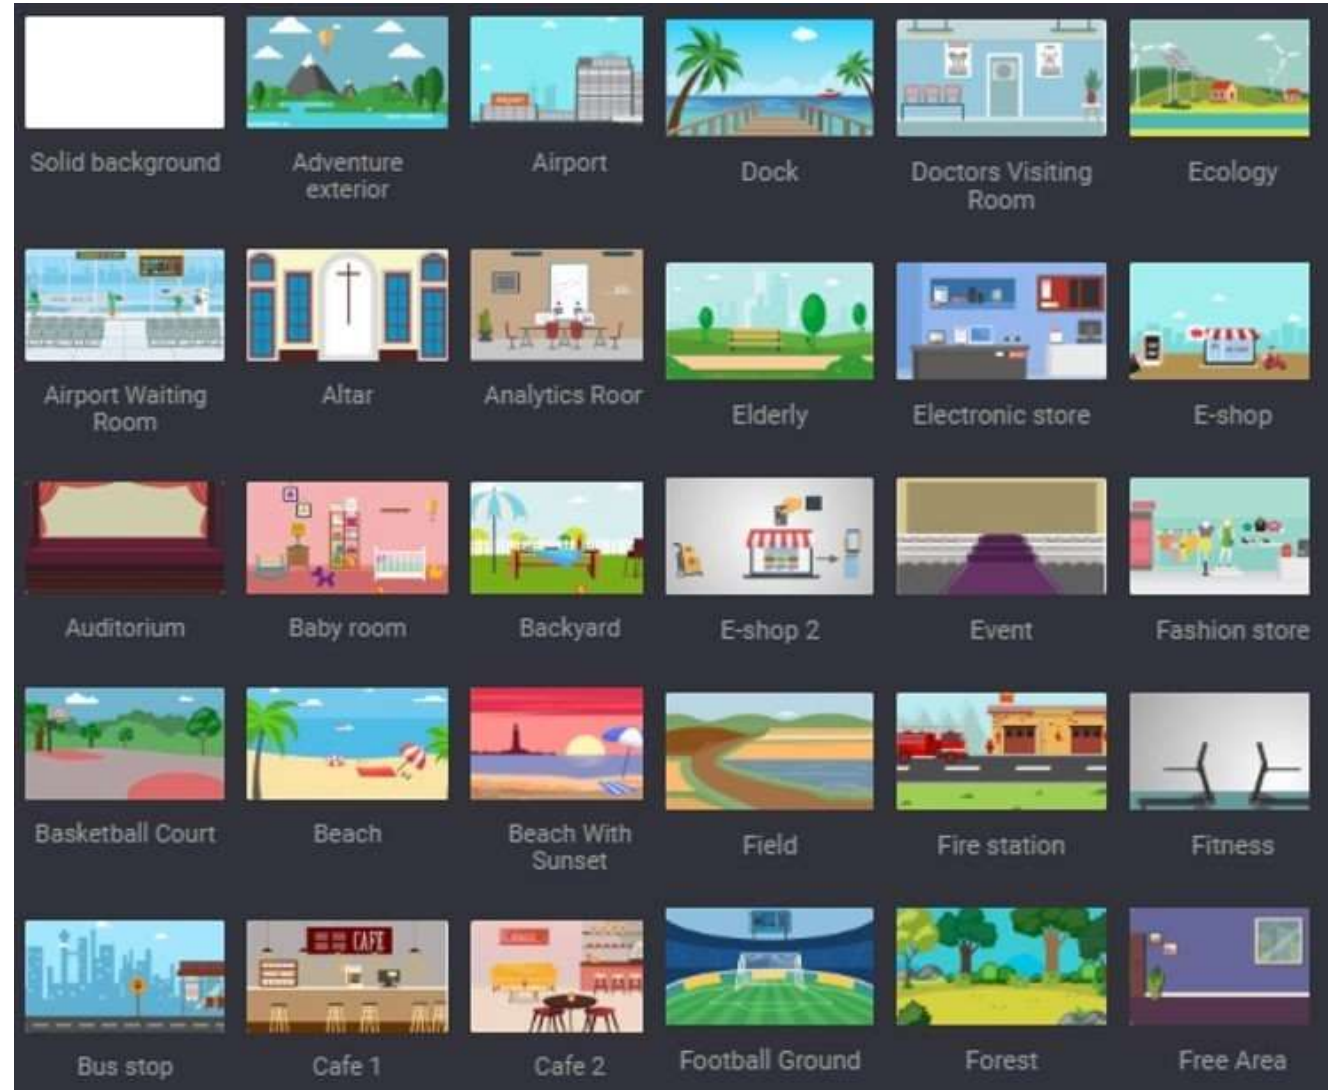

The explainer animation videos that you create using Toonly can be exported in various high-quality mp4 formats. The mp4 videos can be exported in 480p, 720p, 1080p, 1440p, 4K, or even custom resolutions. You can also export the video in 24-60 fps file sizes and low to maximum video qualities.

- Because of the way animated explainer videos are structured people tend to get hooked to the story, which increases audience engagement and conversion.
  - Explainer videos can easily simplify complex topics.
  - People don't feel that they are being marketed to when watching an animated explainer video.
  - They are great tools for storytelling.
  - People like to share these kinds of videos with their friends and family, thereby increasing the organic reach of your video.
- And all of the above things can be made possible with the Toonly animation explainer video creator.
